PRACTICE INTERVIEWS · ELICITATION WORKSHEET

ANALYST PAIR

SYSTEM

YOUR JOB IS TO INVESTIGATE. DO NOT WRITE REQUIREMENTS OR DESIGN A SOLUTION YET.

1 Analyze the scenario

Complete the **Analyst Scenario Card** to help you prepare interview questions: what you **know**, what you **assume**, and what you **need to discover**.

2 Plan a semi-structured interview

INTERVIEW GOAL: WHAT ARE YOU TRYING TO UNDERSTAND?

CORE QUESTIONS (3 TO 4). INCLUDE AT LEAST ONE "TELL ME ABOUT THE LAST TIME…" OR "WALK ME THROUGH…" QUESTION.

1

2

3

4

POSSIBLE PROBES (AT LEAST 2)

Examples: "Can you give me an example?" · "What happens when...?" · "Why does that matter?"

a

b

c

BEFORE YOU START

Introduce yourselves and why you're here. Decide who asks first and who takes notes, then swap halfway.

3 Conduct the interview

Listen for these, and follow useful answers:

GOALS | CURRENT PRACTICES | PROBLEMS | REASONS | EXCEPTIONS | CONSTRAINTS | CONFLICTS | UNEXPECTED INFORMATION

QUESTION WE ASKED	WHAT WE HEARD

4 Reveal & compare

Now the stakeholder may show you the private card. Compare what was on the card with what your interview uncovered.

WHAT DID YOU DISCOVER?	
WHICH ASSUMPTION WAS CONFIRMED, CHALLENGED, OR STILL UNCERTAIN?	
WHAT IMPORTANT INFORMATION DID YOU MISS?	
WHAT QUESTION OR PROBE COULD HAVE UNCOVERED IT?	

MOST INTERESTING SURPRISE

What did the stakeholder reveal that you had not even identified as something you needed to discover?
