Work Experience

Digital Corps, Ball State University

SOFTWARE ENGINEER Sept 2023 – Present

- Collaborate with cross-functional teams (UX, developers, videographers, communications, PMs) to deliver digital solutions for Ball State faculty.
- Develop web and mobile applications using React and modern technologies to support university operations
- Design database architecture and implement secure authentication systems with MySQL and SAML Single Sign On

Basitech

SOFTWARE ENGINEER July 2024 – January 2025

- Developed comprehensive School Management System for middle and high schools, implementing student/teacher management, results tracking, and fee payment features.
- Built dynamic student management dashboard with data tables, user suspension/activation controls, and academic results visualization
- Integrated RESTful APIs for real-time data synchronization and migrated entire React codebase from JavaScript to TypeScript

HeadStarter

SOFTWARE ENGINEER Jul 2024 – Sept 2024

Fellowship Program

- Built and deployed 5 AI projects in 5 weeks using React JS, Next.js, Firebase, Clerk, and Vercel, with agile methodologies and CI/CD practices.

Projects

ADMIN MODERATION DASHBOARD

- Designed and implemented a robust moderation dashboard for the marketplace platform, enabling efficient review and management of user reports.
- Integrated Duo Security Single Sign-On (SSO) using OIDC protocol for enterprise-grade access control and admin authentication.
- Built real-time filtering, audit trails, and action history tracking with responsive UI using Edge templates and Tailwind CSS.

PANTRY VISION

- Developed a pantry management app with AI features for tracking food, labeling expiration dates, and generating recipes
- Integrated Gemini image processing for seamless food item upload into the Firebase database.

HEALTHCONNECT: MULTI-AGENT MEDICAL Q&A SYSTEM

- Developed a web application delivering medical answers using multi-agent LLMs and Model Context Protocol (MCP).
- Built MCP server exposing search_pubmed and web_search tools for comprehensive medical and web searches.

Education

BALL STATE UNIVERSITY Muncie, IN

Bachelor's in computer science, minor in Computer Technology, 4.0 GPA

Aug 2023 – Dec 2026

Skills

Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js, React Native

Backend: Node.js, Adonis.js, PHP, Python, Java

Databases: MySQL, SQLite, Firebase

Cloud & Tools: AWS, Docker, Vercel, WordPress CMS, Wix

APIs & Security: RESTful APIs, Gemini API, OpenAI API, MCP, Duo SSO/OIDC Postman, and SendGrid Email.

Core Competencies: Problem-solving, cross-functional collaboration, database architecture design, full-stack development, and API integration.

Leadership & Activities

- Ball State First Cooking Club | Vice-President, Co-Founder
- Ball State Business Analytics Club | Secretary
- Ball State Cybersecurity | member
- Ball State Drone Club | Treasurer

Languages

- English – Native Speaker
- Igbo – Native Speaker
